Christy, this is awesome. Thanks a bunch. Please find the revised lab request form for the week of October 31, 2016.

Yes. All of the COPCs are unchanged and all discussions related to CRQLs associated with water from previous sampling are relevant and are acceptable for these surface water samples.

Yes. I can collect those the week of Oct 31.

Question: would the week of Nov 7 also work for you? And, will these go to Houston rather than CLP?

I will be talking with Bret tomorrow on getting bottles/materials etc and sampling dates together.

thanks

Katrina,

One more question for you regarding the Hexavalent Chromium samples . There is a 14 day holding time and our analyst is out of pocket from Oct 24 – Oct 30. Is there any chance that all of the hexavalent chromium samples could be collected during the week of October 31?

Katrina,

We should be able to add your 10 or so water samples. Can you please update the Request Form to include them?

One question. Is it safe for us to assume that any CRQLs that we discussed for the last sampling event that we could not meet levels on and you approved the levels we could meet is still good on this event?

Subject: RE: Wilcox Lab Request forms

Myra/Christy, I have just returned from a management briefing and there is a small adjustment I would like to request. Surface water is emerging as a focus area. I would like to know if I can add approximately 10 surface water samples (+QC) to the request for the week of October 24, 2016.

Is this request possible?

The focused COPCs are the same as ground water.

I would need the following:

Water (refer to attached Table 8)	Volatiles (including EDB) Trace Water			Trip blank Duplicate Matrix Spike
	Volatiles (including EDB) Low Water	10	1 1 1	Trip blank Duplicate Matrix Spike
	Semivolatiles Low Water	10	1 1	Duplicate Matrix Spike
	PAHs Low Water by SIM	10	1 1	Duplicate Matrix Spike
	Hexavalent Chromium	10	1 1	Duplicate Matrix spike
	Metals including mercury	10	1 1	Duplicate Matrix spike
	Cyanide	10	1 1	Duplicate Matrix spike
	Hardness	10	1 1	Duplicate Matrix spike
	Total Dissolved Solids	10	1 1	Duplicate Matrix spike
	Alkalinity	10	1 1	Duplicate Matrix spike
	Total organic Carbon	10	1 1	Duplicate Matrix spike

Adding these revises the water request as follows.

Water (refer to attached Table 8)	Volatiles (including EDB) Trace Water	1	1 1 1	Trip blank Duplicate Matrix Spike
	Volatiles (including EDB) Low Water	10	1 1 1	Trip blank Duplicate Matrix Spike
	Semivolatiles Low Water	10	1 1	Duplicate Matrix Spike
	PAHs Low Water by SIM	10	1 1	Duplicate Matrix Spike
	Hexavalent Chromium	10	1 1	Duplicate Matrix spike
	Metals including mercury	10	1 1	Duplicate Matrix spike
	Cyanide	10	1 1	Duplicate Matrix spike
	Hardness	10	1 1	Duplicate Matrix spike
	Total Dissolved Solids	10	1 1	Duplicate Matrix spike
	Alkalinity	10	1 1	Duplicate Matrix spike
	Total organic Carbon	10	1 1	Duplicate Matrix spike

Subject: Wilcox Lab Request forms

Hi Myra/Christy – attached are the lab request forms for Wilcox RIFS. Note that we won't be ready to submit samples until the week of Oct 24th so these requests are for Oct 24-28 and Oct 31 – Nov 4. Let me know if you have any questions.

Thank you
